Alphics Phonics is a treasure for every one who needs to learn phonetics. After learning the nuance of phonetics now I'm confident enough. I could notice drastic changes in my accent. My biggest and sincere thanks to Bharathi ma'am for giving such incredible teaching.

I personally had a great time learning under Bharathi mam. She is one such person with great skill and patience. Which is seen rare together. She literally replies and sends you audio text for your query. She takes time in explaining your doubts and makes sure you get the point. She purely does the teaching as a service and not business. I could feel it in the way she decodes for us her own academy syllabus and fee structures. I am wholly satisfied with all the teachings and notes she provided. Any one out there wanna learn phonetics and phonetics please i request you to not waste your hard earned money on some other place. She is the best in town. Book your seat now for her phonetics class.

Choosing Alphics Phonics is one of the best decisions of mine. I did Phonetics trainer course. The way they framed the syllabus, their teaching methodology is awesome. Especially Revathi ma'am took the classes in most interesting way, her patience and dedication must be appreciated. Thank you so much Alphics Phonics for paving way to learn from home and work from home. Happily starting my next phase of career as PHONICS TRAINER. My sincere thanks to Alphics Phonics and Revathi ma'am. All the very best to the entire team. Keep rocking.
